SOIL FROM PACIFIC PROVING GROUNDS

SYMBOL: EMB:PEP

Since you indicated in our telephone conversation last week that you would not have use for any appreciable part of the 250 pounds of soil from the Pacific Proving Grounds, we would like to have between 100 and 125 pounds of it sent to Professor H. B. Tukey, Department of Horticulture, Michigan State College, East Lansing, Michigan.

Provided you have determined the activity in this soil, it would be helpful if this information could be passed on to Dr. Tukey, and we would also like to have the data for our office.
